

GK Framing was proud to gift-in-kind 20 frames for *Oscar Bluemner: A Passion for Color* at the Whitney Museum of American Art (October 7 through February 12, 2006). These frames, inspired by unique designs from the 20's, 30's, and 40's were created by GK expressly for the Whitney Museum. This new line of frames represents an informed understanding of what the artist himself might have admired.
